Additional Information

Self-locking technology

Secure in any position, Xonar Shutters can feature a unique self-locking capability that ensures the shutters can never be left insecure. Available as standard on Xonar 800 & 900. Ideal for first point of entry.

Xonar Guarantee: 12 month guarantee on faulty materials and workmanship

Accredited and regulated in accordance with ISO 9001:2015

Made in Great Britain: All assembly takes place in our purpose-built Reading factory

Concerned with ensuring all properties are sufficiently reinforced against forced entry, the security standard LPS 1175 is regulated by the Loss Prevention Certification Board (LPCB).

Undergoing rigorous testing conditions and complying to strict manufacturing regulations, Xonar offers both internal and external face-fixed installation.

Security ratings available

Tested to independent security accreditation LPS 1175: Issue 7. Certifications SR2-SR3 offered through Xonar 800 and SR2-SR4 through Xonar 900

Built in capability

Xonar 600 and 800 series are compatible with structural lintel or non-structural box for a flush finish

Internal and external fit

Available for face fit internally and externally to suit all application requirements, with punched and perforation options for ventilation

Aluminium construction

Constructed from high grade aluminium, Xonar Shutters are lightweight without compromise on strength
