Additional Information

What Are Automatic Car Park Barriers? Easily Control Access. Expert Installation. Ongoing Support.

Built for reliability and performance from any single phase supply, our Automatic Barrier Systems are perfect for use in any car park.

They can be made to work with a number of access systems, including remote control fobs, push button systems, and password key pads.

They are ideally suited to car parks in residential areas, and commercial buildings, or anywhere you need to control traffic and prevent unauthorised parking.

What Options Are Available for a Barrier System?

As you would expect, you can have a number of colour choices, operating systems, and additional security measures and visual aids to accompany your barrier system.

We appreciate that every need is slightly different, so we work with you to quote for the exact specification you require. Typical Options:

- Colours (Red & White, Black & Yellow, or any RAL colour of your choice)
- End Rests
- Safety Cells
- Reflective Badges
- Articulated Arms for Low Ceilings
- Safety Edge Sensors
- No Entry Signs

If you have a requirement that you don't see listed above, that doesn't mean we can't help. Get in touch with our friendly sales team to discuss your requirements.
